

Removal of Restrictions on Photography:

Hitherto, air passengers in India faced restrictions on photography at terminal buildings of aerodromes and from inside an aircraft. These restrictions have now been removed. Photography by passengers of scheduled flights in terminal buildings of civil aerodromes and civil enclaves of Defence aerodromes is now allowed. Passengers are now also permitted to take photographs from inside an aircraft while in flight or landing/take off at civil aerodromes. However, photography from inside an aircraft is not permitted at Defence aerodromes.
